# About Course

Urbancode's German Training Course paves as a gateway to economic opportunities, academic excellence, and cultural depth. Expertly curated by seasoned linguists, this online course explores fundamental and advanced German language concepts. From mastering essential vocabulary to fluently expressing ideas, participants gain immersive experience, equipping them with the language skills needed to excel in a German-speaking environment.

## Primary Aspects

- 60 hrs Instructor-Led Training
- Practice & Exercises for Speaking | Writing | Reading | Listening
- Mentor Support

## Why should you choose this course?

Learning the German language can help you settle quickly in Germany and other German speaking countries. The benefits of learning various levels of German language are

- The labour shortage in Germany enables professionals to seek job opportunities by learning the language, also enabling smooth transition abroad.
- The Healthcare professionals and Mechanical engineers with B1 level of CEFR (Common European Framework of Reference for Languages) are eligible for job seeker visa.
- Students with B1 or B2 level can apply for a visa for employment opportunities. Job seekers get the benefit of time as the government **allows 6 months for job search**.
- In the German education system, students are enrolled in a **Berufsschule** (vocational school), which they attend part-time while concurrently engaging in apprenticeships or on-the-job training, providing a holistic and hands-on approach to learning
- For Indian students seeking a rewarding career path, **Ausbildung courses** in Germany offer a unique chance to acquire valuable skills, earn during the learning process, and establish a career in a dynamic and flourishing economy.
- Professionals with B1 are eligible for **permanent residency** after living for two years in Germany. And professionals with C1 & C2 level of German knowledge are eligible for **direct citizenship**.
- Anyone with adequate knowledge of German language can migrate to Germany for **free education**, based on the government policy.
